

the Environmental Protection Agency in April 1998. The comment period on the draft is 45 days from the date the Environmental Protection Agency publishes the Notice of Availability in the **Federal Register**. Agencies and other interested persons or groups are invited to write or speak with Forest Service officials at any time during the planning process until the 45 day comment period on the draft ends. The final environmental impact statement and record of decision is expected to be completed in June 1998.

The Forest Service believes it is important to give reviewers notice at this early stage of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir.1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980) Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.) Please note that comments you make on the draft environmental impact statement will be regarded as public information.

### Decisions to be Made

Abigail Kimbell, Forest Supervisor, is the Responsible Official and will decide whether or not to authorize timber harvest within the South Babione Project Area. The Responsible Official will make a decision regarding this proposal after considering public comments and the information in the final environmental impact statement, and applicable laws, regulations and policies. The decision and supporting reason will be documented in the Record of Decision.

Dated: August 20, 1997.

**Abigail R. Kimbell,**

*Forest Supervisor.*
